

WORKING FOR GENERATIONS TO COME!

Woods grading scrapers are designed to handle more material in fewer passes. Ideal for jobs such as levelling potholes in gravel driveways or smoothing soil, Woods have a grading scraper to suit all applications including a model designed for sub compact and compact tractors.

Featuring heavy duty mast plates, adjustable skid shoes and tall side frames to hold more material for levelling. Woods grading scrapers all come with scarifiers with cutting widths that vary from 1.35m (5ft) to 2.4m (8ft).

- Heavy-duty mast plate creates more down force for smoother surface and virtually eliminates washboard effect.
- Adjustable skid shoes and scarifiers increase performance.
- Tall side frames hold more material for levelling
- Approachable leading edges and structural reinforcements keep scraper stronger for longer.
- Reversible/replaceable high-carbon cutting edges
- All models are available without scarifiers when deep tillage is unnecessary. Grading scrapers without scarifiers have no shank pockets.

Tractor PTO HP Range:

15 - 80HP

Models

GSS54P | 15 - 30hp

GSS60P | 20 - 50hp

GSS72P | 20 - 50hp

GSM84P | 30 - 70hp

GSM96P | 30 - 80hp

**WOODS POWER - POWER TO
BE MORE PRODUCTIVE**

GSS72P

SPECIFICATIONS		GRADING SCRAPERS
